Noga Inbar

+447428247658   noga.inbar@gmail.com   Lives in London, UK

Profile

I am an Artist, designer and coder who loves making digital products.

I am fluent with various design tools such as Sketch, Photoshop and Illustrator. I write HTML5, CSS3 and Javascript. I enjoy the entire process of design, from the initial idea to the meticulous composition of beautiful user interfaces. I am interested in people – what they love and value.

I am a UI and UX designer who also understand code and is not afraid to interact with all the various parts of a project. I value learning and trying over predicting. I love learning about different approaches to user centred design.

I am all about collaborating with others, sharing ideas and help building creative communities.

Skills

DESIGN TOOLS	CODING LANGUAGES	FRAMEWORKS	OTHER TOOLS
Pen and paper!	HTML5	SASS	Git
Sketch	CSS3	jQuery	Gulp
